Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims 1-28 are pending in the instant application.

Election/Restriction

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, Claims 1-8, drawn to an insect acetylcholinesterase and a peptide fragment of the acetylcholinesterase.

Group II, Claims 9-11, 19, and 20, drawn to an isolated nucleic acid molecule encoding an acetylcholinesterase, a recombinant vector, and a host cell.

Group III, Claims 12-18, drawn to a method for detecting insects carrying resistance to particular insecticides by nucleic acid analysis.

Group IV, Claims 21-22, drawn to an antibody and a reagent for detecting insects carrying resistance to particular insecticides.

Group V, Claim 23, drawn to a transgenic invertebrate animal.

Group VI, Claims 24-28, drawn to a method for screening an insecticidal substance, a reagent, a kit, and a method for screening inhibitors of an AChE1.

Art Unit: 1632

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical feature for the following reasons.

The technical feature of the invention of Group I is the enzyme, whereas the technical feature of the invention of Group II is the nucleic acid, and the technical feature of the invention of Group III is the method of nucleic acid analysis, and the technical feature of the invention of Group IV is the antibody, whereas the technical feature of the invention of Group V is the transgenic animal, and the technical feature of the invention of Group VI is the screening method. Thus, there is no special technical feature linking the inventions of Groups I-VI.

Accordingly, Groups I-VI are not so linked by the same or corresponding special technical feature as to form a single general inventive concept.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Patent applicants with problems or questions regarding electronic images that can be viewed in the Patent Application Information Retrieval system (PAIR) can now contact the USPTO's Patent Electronic Business Center (Patent EBC) for assistance. Representatives are available to answer your questions daily from 6 am to midnight (EST). The toll free number is (866) 217-9197. When calling please have your application serial or patent number, the type of document you are having an image
